

Unite London & Eastern Region

# Young Members Training Weekend

1-3 February 2013

**The London & Eastern Region of Unite is running a residential training weekend for young members (30 and under).**

This course will build on the knowledge and skills of young members to get active within their workplaces and communities, get involved in the young members campaigns and the broader campaigning work of the union. You don't need to be a workplace rep to attend this course, you just need to be able to commit to attending for the duration of the course and want to get active within your workplace and the union.

Please note this course will run from Friday evening until Sunday lunch time, places are limited so book early to avoid disappointment!
